

St. Mary's Episcopal Church Cemetery Report, January 2010

Interments: Bruce Mossman, Mark DiMino.

A wet season meant more routine mowing was needed. Extra maintenance included spring and fall cleanup, topping off a declining maple, and repair of tombs. After the NStar company replaces the guy wire across Concord Street, the rest of the tree will be taken down. A Davis stone which had fallen over was set up and cemented in place by John Hurney and Dick Sabin.

Requests continue to come from people interested in learning more about their ancestors with connections to St. Mary's. Early church records and cemetery information answer most inquiries.
